PROFESSIONAL SUMMARY

Interior Designer and 3D Visualization Specialist with 3+ years of experience across residential, commercial, and hospitality projects. Proficient in 3ds Max, V-Ray, D5 Render, SketchUp, and AutoCAD — delivering full project lifecycles from concept brief and space planning through technical documentation, FF&E specification, and site coordination. Proven ability to convert 2D architectural drawings into client-approved 3D visualizations and production-ready drawing packages. Available for relocation; open to visa sponsorship.

SKILLS

3D Visualization: 3ds Max, V-Ray, D5 Render, SketchUp, Lumion, Corona Renderer, Walkthrough Animation, Photorealistic Rendering

Technical Drawing: AutoCAD, Floor Plans, Elevations, Sections, Reflected Ceiling Plans, Detail Drawings, BOQ, Tender Documentation

Interior Design: Concept Design, Space Planning, Material Selection, FF&E Specification, FF&E Procurement, Mood Boards, Colour Consultancy

Collaboration: Client Presentations, Design Briefs, Contractor Liaison, Project Coordination, Revisions Management

AI & Post-Production: Midjourney, Adobe Photoshop

PROFESSIONAL EXPERIENCE

Interior Designer | Little Big Interior Co. | Feb 2024 – Present

- Delivered end-to-end design across 10+ residential and commercial projects, managing full lifecycle from client brief and concept through design development, technical documentation, and site completion.
- Produced photorealistic 3D renders and walkthrough animations using 3ds Max and V-Ray, accelerating client design approvals and reducing revision cycles.
- Prepared complete AutoCAD drawing packages — floor plans, elevations, sections, and reflected ceiling plans — used directly for contractor coordination on active sites.
- Specified finishes, materials, and FF&E items across varied budget tiers, maintaining design intent and full scope compliance throughout.
- Liaised with clients, contractors, and project managers at each stage to protect design intent through to final site delivery.

3D Visualizer | Winder Max India | Feb 2023 – Dec 2023

- Produced detailed 3D interior visualizations and presentation renders for residential and commercial projects using 3ds Max and SketchUp.
- Converted 2D architectural drawings into accurate, production-ready 3D models to support client presentations and design communication.
- Collaborated with design teams to align visual output with client briefs, design intent, and project documentation across concurrent deliverables.

Interior Designer & 3D Visualizer | Freelance — Independent Practice | 2023 – Present

- Delivered end-to-end interior design and 3D visualization services for residential and hospitality clients, managing briefing, concept, iteration, and final render delivery independently.
- Built a client portfolio spanning apartments, villas, and hospitality interiors across multiple scales and budget tiers.
